SUBJECT: MUELLER TIME IS IMPEACHMENT TIME

The Republican and Democrat Parties do NOT care about the National Security of the United States. In 2016 the Democrat Party nominated Hillary Clinton less than a week after then FBI Director James Comey stated that "Hostile Actors" probably have Hillary Clinton's emails. Therefore the Democrats risked the National Security of the United States when they nominated her, and as a result, Donald Trump was elected.

Now with the Mueller Report the Republicans are doing the same thing, risking the National Security of the United States for THEIR President. The National Security of the United States is NOT at risk because the President committed a crime, like Obstruction of Justice, but because Donald Trump COMPROMISED the Office of the President of the United States, with the myriad of contacts him and associates of his campaign had with "HOSTILE ACTORS" of the Russian government and or agents working on behalf of the Russian Government. What should concern all Americans is NOT what is in the Mueller report, but what the Special Counsel did not find. Just because they did not find evidence of CONSPIRACY by the Trump Campaign and the Russians, doesn't mean it didn't happen. All Americans should ask themselves why is Donald Trump so cozy with Russian President Vladimir Putin? Is it because Putin has something he can hang over Trump? A National Security Question.

The media should ask the Justice Department if the Mueller Report identified the actions and contacts of Donald Trump on any OTHER Federal Employee that had access to a few classified documents; would they grant that person a Security Clearance? The reason Employees that have access to confidential material REQUIRE investigation by the FBI and a Security Clearance, is to ensure that person is NOT a risk to National Security. Could the American people have elected a "John Walker"? Now a President has access to ALL our Nations Secrets and based on the Mueller Report's findings, Donald Trump is as much as a National Security Risk as Hillary Clinton was in 2016.

The Mueller Report isn't the time to investigate criminal charges against Donald Trump, but a call for Articles of Impeachment. The Republicans do not want to Impeach Donald Trump as they placed all their eggs in the Donald Trump basket and their future is tied to his re-election. The Democrats do not want to Impeach Donald Trump, they would rather be able to continually investigate him for the remainder of his term, rather than impeach him and have to run against a President Mike Pence. In 2016 the Republicans had a crowded field of candidates running for President because the Democrats had a FLAWED candidate and National Security Risk in Hillary Clinton and that gave us Donald Trump. Now the Democrats have a crowded field of candidates because the Republicans have a FLAWED candidate and National security Risk in Donald Trump. Will that result in the election of America's first Socialist President in Elisabeth Warren or Bernie Sanders? This is a risk Republicans would take, but one the Constitution Party of Virginia would never take. **Mueller Time is Impeachment Time.**
