

FOR IMMEDIATE RELEASE

Mar 1st, 2019

Contact: John B. Bloom, Chairman Constitution Party of Virginia, CPofvirginia@gmail.com, (757)806-8694

SUBJECT: ALL PARENTS SHOULD PLAN TO SEE THE MOVIE "UNPLANNED" WHICH OPENS IN THEATERS ON MARCH 29TH

John Bloom, Chairman of the Constitution Party of Virginia, attended a Private Screening for the Conservative Political Action Conference of the movie "UNPLANNED". This is the story of Abby Johnson who started out as a volunteer for "Planned Parenthood" and rose through the ranks to become the Director of a "Planned Parenthood" clinic in Texas and herself had two abortions as she was lied to about what an abortion was and then repeated those same lies to others. She resigned as Director when she realized that abortion is the taking of an innocent human life and not protecting a woman's "right" to choose, which is not a Right protected by the US Constitution. The Constitution Party as the only political party that is 100% Pro-Life, without exception, and the only political party committed to protecting and defending The Constitution of the United States encourages all parents PLAN to take their children to see this "R" rated film "UNPLANNED" which opens in theaters March 29th 2019. The movie deservingly received an "R" rating due to the violence that is synonymous with abortion. The Constitution Party does not only oppose abortion on moral grounds, but on Constitutional Grounds, as the 10th Amendment states that the powers of the Federal Government that powers not granted by the Constitution of the United States are reserved to the states or to the people. The Federal Government has no Constitutional grounds to provide Taxpayer funds to a PRIVATE organization, "Planned Parenthood" and though they are not the only private organization receiving Federal funds, we have to start somewhere, why not start with largest abortion provider in America "Planned Parenthood!"

Mr. Bloom issues the following statement:

"I urge all parents to PLAN to take their children to see "UNPLANNED" which opens in theaters March 1st, 2019, and that includes each and every member of the US Supreme Court and every member of Congress, especially Supreme Court Justice Brett Kavanaugh, Senators Susan Collins, Chuck Schumer and Speaker of the House of Representatives Nancy Pelosi, so they can make an INFORMED decision about "Planned Parenthood" those that went to "Planned Parenthood" were not provided this information in order to make an informed decision."
