

What Kind of Nation Will We Leave Our Children?

February 5, 2019

For too long, both major parties have ignored the religious and cultural values that once bound our nation together. We in the Constitution Party seek to reverse this failure in our system. We must force our government to act responsibly, and safeguard our people and its way of life. We dare to be normal, peaceful, and frugal. We dare to enter the future while holding fast to the truths of the past. Join us as we advance toward a better future of integrity, liberty, and prosperity.
