SUBJECT: THIS IS NOT ABOUT PRESERVING DONALD TRUMP'S PRESIDENCY BUT ANOUT PRESERVING AMERICA'S CONSTITUTIONAL REPUBLIC FOR FUTURE GENERATIONS

After Donald Trump declared a "National Emergency" to CIRCUMVENT the Constitution of the United States by USURPING the Constitutional Authority by MISAPPROPRIATING funds Congress Allocated for the Military for HIS border wall, CONGRESS voted overwhelmingly to block his UNCONSTITUTIONAL Executive Action. The Constitution Party of Virginia COMMENDS each and every member of the House of Representatives and Senate, both Democrats and Republicans that voted to protect, defend and preserve the Constitution of the United States who voted for the resolution.

John Bloom, Chairman of the Constitution Party of Virginia urges Democrats and Republicans in the House of Representative to pass ARTICLES OF IMPEACHMENT against Donald Trump for committing the HIGH CRIME of Circumventing the Constitution of the United States, the SUPREME LAW OF THE LAND and acting as a "KING". The Founding Fathers greatest fear was that someday the American People may elect a KING and violate the INDIVIDUAL rights of each and every American, which is why the Impeachment Clause is under Article II (Section 4), the "powers" of the Executive branch of government, to prevent a President from ever becoming a KING.. Not only does the President of the United States not have the authority to VETO any impeachment, but prevents the President from getting involved in the Impeachment Process.

Impeachment was never meant to remove a President for having sex with an intern in the Oval Office then lying about it under oath as was the case of President Bill Clinton. Impeachment was never meant to remove a President for the myriad of criminal acts that Donald Trump is accused of committing in FBI investigations, including those being investigated by Special Council Robert Mueller or the FBI's Southern District of New York. Impeachment was meant to remove a President from office when they violate the US Constitution and USURP Authority from either the Legislative or Judicial branches of government.

If Americans don't stand up to the current KING in the White House, the next King or Queen may declare a "National Emergency" for all this Gun Violence and take your guns away, or declare a "National Emergency" on the best Healthcare system in the world and replace it with Government Run Health Care.

John Bloom, Chairman of the Constitution of Virginia issues this statement in regards to the Resolution passed by the Senate today:

"I COMMEND each and every member of Congress, Democrats and Republicans, that voted for the Resolution opposing the Executive Overreach by Donald Trump, however your job is not done yet in protecting our Constitutional Republic. I urge members of the House of Representatives, Democrats including Nancy Pelosi and Republicans including Representative Justin Amash, to give Donald Trump a choice either he signs the legislation passed by the Senate today or they have no recourse but to pass Articles of Impeachment against Donald Trump for the HIGH CRIME of CIRCUMVENTING the Constitution of the United States, the SUPPREME law of the Land."
